This presentation does not constitute an offer or invitation for the sale or purchase of securities and has been prepared solely for informational purposes.

Forward-Looking Statements

This presentation contains a number of “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without limitation, Black Rock Coffee Bar’s strategy, future financial condition, future operations, projected costs, prospects, plans, objectives of management, expected market growth, and full year 2026 outlook, including, new store openings, total revenue, same store sales growth, adjusted EBITDA, and capital expenditures. These statements are based on Black Rock Coffee Bar’s current expectations and beliefs, as well as a number of assumptions concerning future events. In some cases, you can identify forward-looking statements because they contain words such as “may,” “will,” “shall,” “should,” “expects,” “plans,” “anticipates,” “could,” “intends,” “target,” “projects,” “contemplates,” “believes,” “estimates,” “predicts,” “potential,” “goal,” “objective,” “seeks,” or “continue,” or the negative of these words or other similar terms or expressions that concern our expectations, strategy, plans, or intentions. Such forward-looking statements are subject to known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside Black Rock Coffee Bar’s control that could cause actual results to differ materially from the results discussed in the forward-looking statements, including our history of losses and ability to achieve profitability; food safety and quality concerns; evolving consumer preferences and tastes and changes in consumer spending; our ability to compete successfully; our ability to open new stores or establish new markets; new stores may not be profitable or may close; our marketing programs may not be successful; interruption in our supply chain; our reliance on a limited number of suppliers, distributors and manufacturers; the impact of tariffs and potential changes to U.S. trade policy; impacts from inflation; geographic concentration of our stores; damage to our brand or reputation and negative publicity; failure to offer high-quality guest experience; our ability to maintain our culture; our inability to identify, recruit and retain qualified individuals for our stores; changes in the cost of labor; the ability to protect guests’ and employees’ confidential information; payment obligations under our Tax Receivable Agreement (“TRA”); risks related to our outstanding indebtedness; risks associated with our capital structure; and those other risks described under the heading “Risk Factors” in our Quarterly Report on Form 10-Q for the quarter ended September 30, 2025 filed with the Securities and Exchange Commission (“SEC”) on November 12, 2025, as will be updated by our Annual Report on Form 10-K for the year ended December 31, 2025, once filed, and in our future reports to be filed with the SEC. Forward-looking statements contained in this release are made as of this date, and Black Rock Coffee Bar undertakes no duty to update such information except as required under applicable law.

Non-GAAP Financial Measures

This presentation contains “non-GAAP financial measures” that are financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measures calculated and presented in accordance with accounting principles generally accepted in the United States (“GAAP”). Specifically, we make use of the non-GAAP financial measures “Adjusted EBITDA”, “Adjusted EBITDA Margin”, “Store-Level Profit”, and “Store-Level Profit Margin”. We believe these non-GAAP financial measures assist investors and analysts in comparing our operating performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our operating performance. Management supplements GAAP results with non-GAAP financial measures to provide a more complete understanding of the factors and trends affecting the business than GAAP results alone provide. Please refer to the tables in this presentation for a reconciliation of non-GAAP measures to the most directly comparable financial measure prepared in accordance with GAAP. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for, or superior to the financial information prepared and presented in accordance with GAAP.

Store-Level Profit represents store revenue in the specific period less beverage, food and packaging, labor and related expenses, occupancy and related expenses, and other store operating expenses, excluding depreciation and amortization and pre-opening costs in the period.

Store-Level Profit Margin represents Store-Level Profit as a percentage of store revenue. We use Store-Level Profit and Store-Level Profit Margin in our evaluation of the performance and profitability of each store.

We use Store-Level Profit and Store-Level Profit Margin to supplement GAAP measures of performance in the evaluation of the effectiveness of our business strategies, to make budgeting decisions, and to compare our performance against that of other peer companies using similar measures.

Adjusted EBITDA is net loss adjusted to exclude interest expense, net, income tax expense, and depreciation and amortization, further adjusted to exclude certain items that we do not consider indicative of our ongoing operating performance, including transaction costs associated with our initial public offering (“IPO”), capital restructuring costs, equity-based compensation, gain (loss) on the remeasurement of the liability related to the TRA, certain litigation costs, net, point-of-sale system transition costs and other non-core costs. Adjusted EBITDA Margin represents Adjusted EBITDA as a percentage of Total revenue. We use Adjusted EBITDA and Adjusted EBITDA Margin to supplement GAAP measures of performance in the evaluation of the effectiveness of our business strategies, to make budgeting decisions, and to compare our performance against that of other peer companies using similar measures.

Long-term growth targets

Note: The long-term growth targets are not projections of future performance, but are forward-looking goals and subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the control of the Company and its management, and are based upon assumptions with respect to future decisions, which are subject to change. Actual results may vary and these variations may be material. For a discussion of the important factors that could cause these variations, please refer to the “Risk Factors” section of the Company’s in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the Securities and Exchange Commission on March 4, 2026 and in our future reports to be filed with the SEC and the disclaimer at the beginning of this presentation. Nothing in this presentation should be regarded as a representation by any person that these long-term targets will be achieved, and the Company undertakes no duty to update its goals. Adjusted EBITDA is a non-GAAP measure. See slide 2 for a definition of adjusted EBITDA.
